## New OIL SAFE® CONTAINER DRUM RING™

Another innovation from Fluid Defense Systems is the new Label Safe Drum Rings available in 10 different colors to suit all Oil Safe Containers.

The New Label Safe Drum Rings have a host of features and benefits for identifying your Oil Safe Containers:

- **Industrial grade with UV stabilizers and anti-static additives** for reliable service indoors or outdoors.
- Available in **10 different colors** to enable comprehensive color-coded identification of Oil Safe Drums. Match the Drum Ring Color to the Oil Safe lid color to ensure no mixing of lubricants.
- Drum Ring **features a hook** that enables Label Safe Pockets and Leashes to be fitted to Drum Rings for additional labeling options.
- **New recessed panels** on periphery of Drum Ring enables the fitting of Label Safe DRUM RING ID LABELS into the recessed panels for additional information.
- **Create Custom ID Labels** for your Drum Rings on-line at [www.labelsafewizard.com](http://www.labelsafewizard.com). Drum Ring ID Labels are available in sheet quantity for immediate application and identification of Oil Safe containers.

**ORDER A FREE DRUM RING STARTER KIT FOR YOUR OIL SAFE CONTAINERS TODAY at [www.fluiddefense.com](http://www.fluiddefense.com) and start establishing a best practice lubrication program at your workplace!**

 Made in the U.S.A.
